Use any time for a freshly washed feeling & to calm frizzies

Makeup Addict admits that I love baby products for my hair and **Original Sprout Miracle Detangler** is one of the best. No, I am not embarrassed to admit this. My hair needs gentle treatment every so often - to make up for the abuse I heap upon it usually. First, let me say -- I opted for the small size -- but you really are smart to get the larger size -- you get more for your money. Once you try it, you will be happy that you bought the extra. This is one totally refreshing spray detangler. It has a very pleasant fragrance. . . as usual - I cannot really pull out the various scents but, believe me, it is so nice. I find it to be very fresh and clean. You can use this on wet or dry hair -- I have used it on both. I was very satisfied with it either way. It only takes a few quick spritzes and you comb it through -- leaving NO tangles. Hey, if you have tangles and you force your comb through -- you are damaging your hair -- that is why this detangler is such a great tool. Later I find that my hair is very soft - but not greasy or oily as I had no residuals. I think it actually added a little control to my hair. Definitely got rid of the frizzies and that is huge!!! Now I have to go back and get the larger size -- it is definitely worth it. My hair loves **Original Sprout Miracle Detangler**.
