Looking at what **Original Sprout** had to offer, we opted for another extended network mom. She has 3 children, all with ethnic hair, who needed the **Natural Shampoo** & **Miracle Detangler**. (These products are for all skin & hair types) This mom has never heard of or seen Original Sprout products. Here is what Brianna had to say when we sent her questions on some products from **Original Sprout**:

What Do You Like About The Product-

There wasn't anything I would complain about with these products. I liked everything about them.

Any Suggestions On How To Improve The Product-

None needed

Would you recommend this product to family and friends? Or who would you recommend this products for?-

I would recommend these products to everyone especially people who have young kids. I have already recommended it to family.

Was the price...just right, way too high-priced or actually cheaper than you would have paid for it?-

I think the price was just about right for my family needs.

Additional Comments-
