Original Sprout™ Worry-Free Luxury™

Who says babies do not get dry? With the wind and cold weather, their ultra baby smooth skin needs ultra gentle care that moisturizes. Keeping their skin hydrated by putting on a barrier between the wind and moisture makes it velvet smooth at all times and this prevents skin from getting scaly and itchy. Spare them from harmful toxins by trusting only organic [Original Sprout](#).

100% vegan, only natural ingredients ranging from coconut oil, basil, rosemary and other safe elements added to make up an all natural [Scrumptious Baby Cream](#) that can be used through the face and all over the body even by the whole family. I should know because nothing can stop me from using my baby's Original Sprout Scrumptious Baby Cream. I simply love how my skin turns soft and smooth and that nice powdery scent everyone smelling it comments on. It is a daily treat I also give my wee one for her morning after bath massage.

Bath time has always been an event between me and my 2 year old. It is a great time to bond as it is one of the things she enjoys most in her day. After gathering her bath mates, she won't stop tagging at my hand urging me on if I dally. And always, she asks if her [Original Sprout Natural Shampoo](#) is already in her bath organizer. I like the shine it gives on her hair, the easiness in combing after each shampoo due to the organic moisturizer plus the knowledge that there is no single harmful ingredient that can affect her health now and in the future. Likewise, I also use it, and have convinced friends in using too, not only for my hair turning unbelievably soft and supple, but also that my hair coloring lasting more than it ever did before. And all day long, I feel my hair being clean and healthy.

More so with the use of the [Original Sprout Miracle Detangler](#) because with this all natural spray that I carry everywhere I go, my hair stays calm and shiny. No tangles, no frizz.

Now, me, my family all benefit from using Original Sprout products. You should try it too, and spread the word...because it simply is worth spreading!
