Original Sprout

Its not often that you find a company that makes skin care products for the whole family from mommy to baby. But luckily enough, I came across one that does. Whether I need lip care for chapped lips or diaper balm for my baby, I can find it all at [Original Sprout](#) Their wonderful line of skincare products are made with 100% natural ingredients like essential oils and soothing botanicals. They contain no harsh chemicals or detergents. They are 100% vegan and of course they are cruelty free.

[Original Sprout](#) was nice enough to send me a bottle of their baby lotion to try out. I have really enjoyed using it for my baby. It has a light, crisp scent and leaves skin feeling rose-petal soft. The baby lotion is gentle and safe for a newborns skins. It goes on smooth and has no greasy residue. It comes in a nice squeeze bottle for easy access.

I also got to try their baby shampoo. The first thing I noticed about the shampoo is is the scent. The soap is lightly scented with cranberry, calendula, rosemary and basil which is pleasing for mommy and relaxing for the baby. The easy to use container creates a generous foam that lathers nicely. Bath time will only take about one small squirts to shampoo the hair. At this rate, one bottle will last much longer than most store bought brands so even though its a little more per bottle, you will save in the long

run. Plus you're getting the benefit of knowing you're using the most natural ingredients for your baby's sensitive skin.

There are lots of other wonderful products available at [Original Sprout](#). They also have lotions and oils, hair care, and some terrific gift sets that would make any mommy or mommy-to-be smile.
