Misty

25 year old mother to a handsome six month old baby boy. I have a passion for photography, makeup, randomness, being outside, and I'm known for being honest and very blunt! I'm a breastfeeding, cloth diapering kind of mom. I do my best keep my sanity while keeping the house clean and organized, shopping smart and saving as much money as possible, being frugal. Going green, eating organic, making meals at home, and trying to improve my cooking skills! Being part of my community is important to me. I'm currently involved in a moms group which meets weekly! This is a fun group where we learn about new products and have 'mom time!' I also volunteer once every two weeks at our local soup kitchen.

His skin felt soooooo smooth! Original Sprout Review!

Original Sprout™ *Worry-Free Luxury™*

Our Worry-Free Formulas are for Parents who don't want PhytoEstrogens touching their Little Sprouts! [PhytoEstrogens](#) can be linked to gynecomastia, early puberty, hormone disruption & fertility problems.

[Original Sprout](#) offers chemical-free beauty products that are [100% vegan](#). They offer a line of hair and body products which are safe for the entire family including newborns. Unlike other brands, Original Sprout products do not contain harmful PhytoEstrogens. PhytoEstrogens are linked to gynecomastia, early puberty, hormone disrupts and fertility problems. I was given the opportunity to review a few products from the Original Sprout Worry-Free Luxury baby line. Let me tell ya I am in awe with this company and I am totally in love with the Scrumptious Baby Cream which is made for babies and up and retails for \$11.95 for 4 oz.

The Scrumptious Baby Cream has natural and organic ingredients and it has soothing zinc. This product is simply irresistible. Aiden and I both adore this product. His skin feels so smooth somewhat like velvet. The [organic](#) rosemary also aids in protecting and calming sensitive skin. It's non-greasy and [extra hydrating](#) for every skin type.

I've used this product for the past week prior to putting Aiden to bed. I'd give him a massage from toe to head and lay him down with a bottle. I've always had issues putting my son to bed and getting him to sleep longer. However, with this product he must feel so relaxed and he's able to stay asleep for a longer duration each night.
