

Welcome!

Original Sprout hair and skin care – not just for baby!

The kids and I are lovin' the natural skin and hair care products by [Original Sprout](#). The kids might not know that they are lovin' it but when I'm not hearing any complaints, then I can only assume that they are lovin' it! Being able to get a brush through my children's hair without a constant high pitched whine is certainly a MIRACLE! That is why the [Miracle Detangler](#) is now my new best friend. And of course, anything that takes one less step out of my day like the [2 in 1 Hair & Body Pure Bodywash](#) is going to be my pal too! Free of any nasty chemicals, this hair and body wash keeps everyone squeaky clean from head to toe. The product that I've pretty much claimed as my own (unless someone can pry it from my now silky smooth sweet smelling hands!) is the [Scrumptious Baby Cream](#). Who said baby cream is just for babies! The lovely mild scent of these natural products is terrifically yummy and easy on the nose.
