

# Original Sprout- Review, Discount Code and Giveaway!!

by ajb30 on September 30, 2010

Luxuriously, scrumptious! And Worry Free too? It sounds way to good to be true. Original Sprout is a family run company who take seriously what goes on their bodies. I am a huge believer in what goes on our bodies can have huge consequences later on in life. I never even thought of it until my first daughter was born. After that, I started my search for awesome products that were natural, organic, and contained none of the harmful products that have been known to cause skin problems, hormone disruption, and even cancer. I was appalled when I hear of some of the things that were going into our babies products, and that it was legal to put products that contain formaldehyde in our babies shampoos! Thankfully there are companies out there like Original Sprout who have our children's best interest at heart. Here is a little about the company:

Original Sprout: Founded by I. Tritt, master stylist and mother. Parents and stylists trust the formulations because they work without carcinogens and common offenders found in other products.

Worry Free Luxury means no natural or synthetic ingredients associated with estrogen enhancement, hormone disruption, cancer and autism such as: Lavender or Tea Tree Oils, Citrus Oils, Clove, Soy, Phthalates, Dioxanes from Sulfates, Parabens, Formaldehyde, Propylene Glycol, Dipropylene Glycol, Acetaldehydes, Styrene, Toluene, Glycol Ethers, Ethylene Oxide, Musks, Nonylphenol, Mineral or Petroleum Oils, Triclosan, Eurethane, 1-2 Propylene Oxide, Placenta or Synthetic Colors

Full compliance with the European Union Initiative: The E.U. and

Japan have the Gold Standard in consumer protection, banning over 1,500 endocrine disrupting, mutanogenic and carcinogenic cosmetic ingredients.

**Skin Cancer Prevention:** Natural or not, our products contain no added essential citrus oils considered to be photosensitizers which can increase the risk of sunburns and skin cancer.

**Full Label Disclosure:** Original Sprout imports worldwide listing all ingredients ensuring full label disclosure. PETA We are against animal testing of any kind.

All products are vegetarian and vegan.

**Fruit and Honey Free:** All products are free of insect attractors such as honey, soda and fruit fragrances.

**No Lavender or Tea Tree Oils:** Due to recent scientific findings Original Sprout does not use lavender or tea tree oil in their products. Scientists discovered that gynecomastia, a condition in which boys develop breasts, is caused by using potential estrogen enhancers such as as tea tree oil and lavender.

Now, all formalities aside, I will say- Original Sprout is by far my favorite company thus far. Their products are super yummy smelling, work excellent, and good for you and the environment.

I was sooo thrilled to be able to review several products from their lines.

**The Natural Shampoo:** Organic emollients detangle and make rinsing effortless, saving time and water. Scalp, hair and skin are nourished without phototoxic and estrogenic essential oils. Leaves hair shiny, hydrated and easy to comb. Moms and stylists agree it's the best color retention shampoo ever! First of all I must say- YUM! This is exactly the way I pictured my babies smelling. It worked super, even on my older daughter who has TONS of thick curly hair. I loved that it has Organic Rosemary to help repel lice and other yucky bugs! Perfect for children in school- any added protection is great! It has no numbing agents but is still gentle on the eyes. My girls both got it in their eyes and no tears so far!

**Miracle Detangler:** Truly a miracle! It is great on wet or dry hair, also helps repel lice and works better than any detangler I have used!! This is definitely one item that I will be purchasing very soon! I have NEVER been able to comb through my daughters hair so easily before. Normally she is screaming and crying from all the tangles the detangler doesn't get. But not anymore! If this works on my daughter, it will work on anyone! And again, smells soooo yummy!

**Scrumptious Baby Cream:** Scrumptious Baby Cream is irresistible, the whole family loves it! Not a sunscreen, but a soothing protective barrier that keeps skin soft and smooth as velvet. Our multi-benefit cream is infused with Natural Zinc for Added Sun Protection plus organic rosemary, helping to repel insects and calm sensitive skin. Non-greasy and extra hydrating for every skin type. I love after a bath with the shampoo and body wash to slather this yummy cream all over my girls and just smell them! It is wonderful, even moms will want to use it!

I also received some of their hair care items for my girls to try out.

**The Curl Calmer-** oh yes, we needed this. For babies and up, everyone enjoys the Natural Curl Calmer! Tight, medium and frizzy curls and waves relax, leaving hair glossy, silky and ultra soft. Immediately smooths away poof, frizz and flyaways. Strengthens and helps protect against breakage. Never crunchy or sticky and

residue free. For clean feeling, silky hair. I really loved how this didn't leave a ton of residue in my girls hair, that is a big problem with most of the products I use on my girls hair. Also, while it did control the curl it didn't make it greasy or oily. A must have for any mom with curly haired babes.

**The Natural Hair Gel:** Clean feeling, medium hold makes frizzies and flyaways smooth and stay in place. Strengthens and softens without sticky residue. Helps prevent breakage and detangle naturally. Free of added fragrance, natural ingredients smell tropical and yummy. For all hair types, including dry or delicate hair. Now this is perfect for my younger daughter with the looser curls. And it smells like coconuts! I do use it on my older daughter for the fly aways, but I have to have the added moisture from the detangler and curl calmer to make it work the best! And did I mention YUM?

They even have articles on different hair types and ways to style them!

Ok, so it is perfectly obvious that I sooo love everything about Original Sprout!! You will too!
