Our Experience:

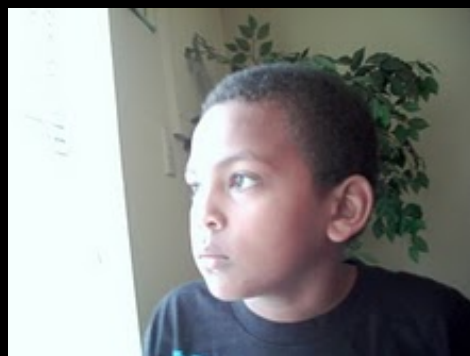

I used Original Sprout Natural Shampoo on every member of the family. I LOVE products that can be used for the whole family and this surely is one!! This shampoo is thick and lush, a little goes a long way. Our hair was clean and fresh but not dry feeling. I ALWAYS need a separate conditioner after washing to detangle my hair and with this shampoo I didn't even use a conditioner. The kids didn't use a conditioner but did use the Original Sprout De-tangler to de-tangle their hair.

The whole family reported loving the gentle, clean scent!!

I love that this product has natural ingredients that help repel bugs and lice, especially since those mosquito's are really thick in Florida right now!

Our Experience:

Because both of my children have **eczema** washing can be a very difficult experience. After bathing they tend to get very dry and itchy, even after moisturizing. Many cleansers just wash so much moisture out of their skin and have ingredients that cause a reaction with their sensitive skin. I am always nervous to use a new products on their skin.

My husband does not have eczema but has very sensitive skin and finding washes for him has been very difficult. He gets very dry, itchy and uncomfortable after bathing

I can honestly say that none of my family experienced any itching or dryness after using **Original Sprout Hair and Body wash**. We all enjoyed the light, fresh, clean scent!

Original Sprout Miracle Detangler

Our Experience:

I am so used to de-tangling products that need to be generously sprayed into the hair before detangling. I sprayed way too much into my sons hair, poor kiddo! It didn't do any harm but did leave a bit of white color that faded when dry. With **Miracle Detangler** and all of the **Original Sprout** products we tried a little goes a long way, just a bit of a spritz and their curls slid right through my hands. It's an awesome de-tangler!!

Original Sprout Face & Body SPF

Everyone loves our **non-greasy natural spf** ! Naturally **vegan & worry-free**, our spf is used on the whole family. Moms love how it helps keep make-up in place & the savings. Our experience:

I really tend to dislike sunscreen, I hate feeling greasy and don't always like smelling like a beach bunny lol. I love the fact that **Original Sprout Non-Greasy SPF** feels like a light lotion, with very little scent! My daughter (above) can apply it without turning her arm white (which happens with thick lotions and greasy sunscreens).

I noticed that along with being a good sunscreen the **Non-Greasy SPF** also moisturized our skin, making it feel soft. This is definitely a sunscreen I would use and use on my family!!

I really enjoyed ALL of the **Original Sprout** products we reviewed but I saved my FAVORITE for Last!!

Original Sprout Natural Curl Calmer

For babies & up, everyone enjoys our **Natural Curl Calmer!** Tight, medium & frizzy curls & waves relax, leaving hair glossy, silky & ultra soft. Immediately smooths away poof, frizz & flyaways.

Strengthens & helps protect against breakage. Never crunchy or sticky & residue free. For clean feeling, silky hair.

Our Experience:

I really enjoyed ALL of the Original Sprout products we reviewed but I saved our favorite for Last!!

When I read that this product "Naturally Straightens, Relaxes & Flattens" I was a little concerned. I LOVE J's natural hair and I don't wish to straighten, relax or flatten her hair but I decided to try it. What this products DOES do is take away FRIZZ !! Actually it does and awesome job of taking away frizz so of you do have relaxed hair or you were going to straighten or stretch your hair it would take away the frizz. HOWEVER, it can also be used to make your curls really shiny, pretty and frizz free.

For the above style I used the **Original Sprout Natural Shampoo**, **Miracle Detangler** and the **Natural Curl Calmer**. I detangled with my fingers and the **Miracle Detangler Spray** and the applied **Natural Curl Calmer** to each section, wrapping the curls around my finger as I

went through each section. Her curls came out frizz free and so soft!!!

Thanks so much to [Original Sprout](#) for allowing us to review their products!!!
