

# Original Sprout™

*Worry-Free Luxury™*

I have discovered a new favorite all natural product line that works for our entire family! It was especially nice to have during vacation! We didn't have to pack a ton of different products for each one of us. We each have completely different skin and it's very hard to find something that works for all of us! It is even more difficult to find one that works for all of us and is an all natural product too. The soap didn't leave our skin dry or itchy. The hair gel wasn't overly stiff or sticky, it had no overpowering scent and worked perfectly on all of our different hair types. My favorite part about the lotion was that it contained sunscreen and didn't leave any nasty greasy residue or smells. This is a product you will definitely want to try, I am positive it will become a favorite in your household as well!
