Original Sprout, a company from San Luis Obispo, CA, is a family-run business that creates a line of natural, high-performance hair and skin care products for babies and up. A favorite of celebrity parents such as Josh Brolin, Cindy Crawford, and Diane Lane, these products are gentle enough for babies but also appropriate for adult use. My son and I recently tried their Natural Shampoo and loved it. It's free of sulfates, doesn't cause tears, and rinses away easily (avoiding a problem with many baby/child-oriented shampoos I've tried on my son). None of their products contain phytoestrogens either, and this shampoo also contains no gluten or soy. It left both my son's and my hair soft, manageable, and smelling fresh. You can purchase a 12 oz. bottle of this great shampoo for \$19.50 at OriginalSprout.com.
